

Seminar

All about Shoes

Dates 2024

18.06. – 20.06.2024

03.12. – 05.12.2024

ISC
Germany

more KNOWLEDGE MORE VALUE

We at the ISC - International Shoe Competence Center are fortunate to be able to impart knowledge about shoes through our instructors, who have many years of experience in the shoe industry.

Whether you work in sales or purchasing or have come to the shoe industry and trade as a career changer, with us you will learn everything about shoes and their industrial production.

The seminar imparts sound knowledge not only theoretically but also practically.

Our „learning factory“ is available to you to deepen the knowledge you have acquired and our instructors will present the complex work processes to you at first hand.

Look forward to three exciting days filled with all sorts of knowledge for your professional future.

Content

1st Day

History of the shoe
model types & shoe styles

Practical part: Cutting, skiving, stitching, and quilting

2nd Day

Anatomy & biomechanics

Further information about our seminars, training courses and further education can be found here or on our homepage www.isc-germany.com.

**„The ISC does not bear its name for nothing.
Rarely have I felt better looked after and advised
in a seminar. A must for employees in the shoe
industry.“**
